

Physio Pilot

We are pleased to announce that we are part of a pilot scheme offering a First Contact Physio Practitioner Service to any registered patients in our locality.

This will be an assessment appointment and you will not require a referral from your GP to be seen. Appointments will be available at the Burdwood Surgery but you will also be able to book an appointment to be seen in one of the other local surgeries.

Eligibility Criteria

In order to book you an appointment our receptionists will need to ask you 4 questions to determine your eligibility for this service:

- 1) Are you concerned about **more than 1 area of your body?**
- 2) Do you have **any other concern** that might necessitate a GP appointment?
- 3) Have you **seen the GP before about the issue?**
- 4) Have the symptoms been **presenting for 3 months or more?**

Any patient answering "YES" to any of the above questions is considered inappropriate for this service and may have their needs better met by a GP appointment.

The first clinic to be held at Burdwood Surgery is **Wednesday 5th June 2019** but there are dates at other surgeries - please ask reception for more clinic dates.
